

Parking in Robert Rossi Park.

There is a driveway onto the park opposite the hotel, which is the only entry and exit into the park we will use. This driveway has been improved and widened. There will be one line of car parks (two lines if needed), with cars going in (nose towards the middle of Robert Rossi Park) and then out and around to the driveway without reversing. The first car would park closest to Nielsen Street. If we all closely follow the plan, we will help to ensure the safety of our children. The drop off/pick up Zone is probably the safest alternative and should be used in most circumstances. Drivers who use the drop off/pick up zone must stay with their car and please move along to the front of the zone to allow others to move in behind and avoid confusion.

UNDER NO CIRCUMSTANCES ARE PARENTS TO PARK IN THE SCHOOL CARPARK!
